

O'NEIL Obidiaso

Frontend Developer | Next.js & React

Oldbury, UK | +447350154783 | oneilhville@gmail.com | linkedin.com/in/o-neil-obidiaso-1172b5293 |

Profile

Frontend developer focused on building full-stack products using Next.js, React, and Supabase. I work with product teams to take features from idea to launch. Currently working on multiple startup projects while completing my degree at Middlesex University.

Skills

Frontend:

- React, Next.js (App Router), TypeScript, Tailwind CSS, HTML & CSS
- Building responsive layouts, form handling, component design

Backend & Database:

- Supabase (PostgreSQL, Auth, API), Next.js API routes, Firebase
- Setting up authentication, managing data, connecting to external APIs

Tools & APIs:

- Stripe, Git/GitHub, REST APIs, Postman
- Working with AI coding tools (Claude Code, Cursor) while maintaining code quality

Other:

- UI/UX basics, problem-solving, learning new tools quickly

Education

BSc IT & Business Information Systems

Middlesex University, Birmingham | Graduating June 2026

Key modules: Business Intelligence (Tableau), Strategic Information Systems and Management, IT solution and Deployment, Technology and Innovation Management and Entrepreneurship

Advanced Diploma in Software Engineering

Aptech Lagos, Nigeria | January 2024

Covered web development, databases, UI/UX, mobile development, project management

Work Experience

Tutor – Frontend Development & Web Development

Cybite Academy, Freelance | 2023–2025

- Taught React, HTML/CSS, responsive design, and UI/UX principles to multiple students
- Built custom projects to explain concepts (todo apps, weather finders, layout exercises)

Freelance Developer

Various Projects | 2023–2024

- Built small to medium websites for local clients using React and Firebase
- Handled everything from design mockups to deployment

Personal Projects

Slip Builder – Football Bet Slip Generator

Next.js, Supabase, Stripe, API-Football

- Built a full product with user auth, payment integration, and live sports data
- Designed free and premium tiers with credit system

Outsy – Structured Decision-Making App

Next.js, Supabase, TypeScript

- Built a tool to help users make better decisions by breaking down options
- Implemented user authentication and data persistence

Event Planner App – Learning Project

Next.js, Supabase, App Router

- Built to learn full-stack development: database design, auth, and API routes
- Focused on understanding each layer instead of copying code

Other

- Graduating June 2026 – eligible for UK Graduate Route visa (2-year work authorization)
- Interested in tech ecosystems, esports, and building products people want to use
